Dear Parents or Guardians, dear Students,

Personal data is to be processed for various purposes. This is only possible with your consent. Therefore, we would like to obtain your consent below.

## **Publication of Personal Data**

In appropriate cases, we would like to make information about events in our school life—including personal data—available to the public. We therefore intend to publish texts and photos created in the context of educational activities or school events. This may include, for example, class photos, as well as personal information about school excursions, student trips, student exchanges, (sports) competitions, educational projects, or the "Open House Day."

## **For publications on the Internet, please see the notice below!**

The granting of rights to the photos is without compensation and also includes the right to edit them, as long as the editing does not distort the original content.

This consent can be revoked at any time for the future. The revocation can also be limited to certain types of media, data, or photos. The legality of processing carried out based on the consent before revocation remains unaffected. In the case of printed materials, the consent can no longer be revoked once the printing order has been placed. If consent is revoked, the relevant data will no longer be used for the above-mentioned purposes in the future and will be promptly deleted from the respective online offerings. If the consent is not revoked, it remains valid for the duration of school enrollment, after which the data will be deleted.

## **Giving consent is voluntary. There are no disadvantages resulting from not granting or revoking consent.**

You have the right to obtain information about your personal data held by the school. Additionally, you have the right to request correction, deletion, or restriction of processing, as well as the right to object to processing and the right to data portability. You also have the right to file a complaint with the data protection supervisory authority, the State Commissioner for Data Protection and Freedom of Information of Baden-Württemberg.

## **Publications on the Internet / Data Protection Notice:**

When personal data (including photos) is published on the Internet, it can be accessed and stored worldwide at any time and for an unlimited period. These data may also be found via so-called "search engines." It cannot be ruled out that third parties may link this data with other personal data available on the Internet to create a personal profile, alter the data, or use it for other purposes.
